

Errata Sheet 2 – California Regional Water Quality Control Board, San Diego Region

Date: 13 February, 02

For: Clean Water Act Section 303(d) List of Impaired Waters, 2002 Update

Item	Correction
-------------	-------------------

pg iii	Page numbers updated.
--------	-----------------------

pg iv	Paragraphs 2 and 3, summary statistics corrected.
-------	---

pg v	Initial statement inserted to call attention to Table 3.
------	--

Statistics added: 9 new pollutants.

Many of the verb tenses have been changed to past tense.

pg vi	1 st paragraph, text added explaining the nature of modifications resulting from public comments.
-------	--

Statistics added: 13 unique pollutants.

pg 1	Initial statement inserted to call attention to Table 3.
------	--

2nd paragraph, text added explaining the nature of modifications resulting from public comments.

2nd paragraph, much of the verb tenses have been changed to past tense.

pg 2	1 st paragraph, 2 nd to last sentence. One de-listing is recommended, but no reprioritizations or scheduling changes.
------	---

2nd paragraph, reworked end of paragraph to stress larger number of listings due to bacteria.

pg 3	1 st paragraph, sentence added stating that prescriptive criteria for listing do not currently exist.
------	--

pgs 4-5	Dates of workshop changed to Dec. 5. Verb tenses corrected to reflect past events. Discussed addition to Appendix A of Items 5, 6 & 7.
---------	--

pg 5	4 th paragraph, text added stating that revised Staff Report considers all public comments to date.
------	--

pg 8	1 st paragraph, text added to stress lack of specific listing criteria.
------	--

pgs 10-13	New text added to “Evaluation Methods” section.
-----------	---

pg 14	New section added, “Bacterial Data Evaluation” inserted after “Evaluation Methods.”
-------	---

pg 15	Statistics added: 9 new pollutants; 13 unique pollutants.
-------	---

pgs 15-16	“Results of Data Assessment” section re-written.
-----------	--

pg 16	Section title expanded to include "Constituents of Concern." Added clarification to San Diego Bay listing.
pgs 17-19	New section added, "Corrections and Clarifications to the 1998 Section 303(d) List" inserted after "Results of Data Assessment."
pg 19	New section added, "List Updates That Do Not Constitute New Listings or De-listings" inserted after "Corrections and Clarifications to the 1998 Section 303(d) List".
Table 1	<p>Changed all San Diego Bay listings from "Toxic Effects" to "Sediment Toxicity."</p> <p>Changed "San Diego Bay, Lindbergh (entire 908 shoreline)" to "San Diego Bay Shoreline, Lindbergh HSA."</p> <p>Changed "San Diego Bay, Telegraph (entire 909 shoreline)" to "San Diego Bay Shoreline, Telegraph HSA."</p> <p>Described specific Locations of Impairment (Beach and Bay) under each hydrologic boundary listing.</p> <p>Re-named "Pacific Ocean, Laguna Beach HSA" to "Pacific Ocean, San Joaquin Hills and Laguna Beach HSA."</p> <p>Re-named "Pacific Ocean, San Clemente HA" to Pacific Ocean, San Clemente, San Mateo Canyon and San Onofre HAs."</p> <p>Many "Extent of Impairments" corrected.</p> <p>Changed "High Coliform Counts" to "Bacterial Indicators."</p> <p>Changed Rainbow Creek listing from "Eutrophic" to "Nitrogen and Phosphorus."</p> <p>San Diego Bay is now listed once, with several different locations and extents of impairment due to different pollutants.</p> <p>Footnotes added for clarification.</p>
Table 2	Two items added: 1 - Final Report for Cease and Desist Order No. 98-74, City of Coronado, 2 - Semi-annual Waste Discharge Compliance Report, City of Coronado.
Table 3	<p>Included Bacterial Listings (901.51 – Pacific Ocean, San Onofre Valley, 906.10 – Pacific Ocean, Miramar and 908.10 – San Diego Bay, Pt. Loma HA).</p> <p>Included de-listing (910.10 – Coronado Beaches)</p>

Inclusion of Coastal Bacterial Listings leads to changes such that pages (24, 27-28) contain new information.

Removed listing for sulfate in Sandia Creek, TDS in Santa Margarita River, and chlordanes in San Diego River.

Footnotes added for clarification.

Waterbodies listed in chronological order by Hydrologic Location number.

Table 4 Deleted Table 4 (Bacterial Bay and Coastline List Update)

Table 5 Renamed to Table 4

Described specific Locations of Impairment (Beach and Bay) under the hydrologic boundary listings.

Waterbodies listed in chronological order by Hydrologic Location number.

Removed listing for sulfate in Sandia Creek, TDS in Santa Margarita River, and chlordanes in San Diego River.

Added Baby Beach to 901.14 – Pacific Ocean, Dana Point HSA listing.

Added Beach Road to 901.27 – Pacific Ocean, Lower San Juan HSA listing.

Added Bermuda Avenue to 907.00 – Pacific Ocean, San Diego HU listing.

Footnotes added for clarification.

Table 6 Renamed to Table 5.

Changed 3rd column heading to “Constituents of Potential Concern.”

Added chlordanes to San Diego River

Added waterbodies: South Bay, Santa Margarita (+ tributaries), Oceanside Harbor, Emerald Bay Shoreline, Laguna Lakes, Rainbow Creek, Agua Hedionda Creek, Buena Vista Creek, Loma Alta Creek, Los Penasquitos Creek, Sorrento Valley Creek, Santa Ysabel Creek, Santa Maria Creek, Green Valley Creek, Cloverdale Creek, Hatfield Creek, Alvarado Creek, Boulder Creek, Padre Barona Creek, King Creek, Chocolate Creek, Dulzura Creek, Proctor Valley Creek, Scove Creek, Cottonwood Creek.

Appendix A

pg A-12	Inserted updated letter dated October 23, 2001.
pg A-14	Item 5 – Changed from “Public Participation Timeline” to “Public Notice of Workshop Date Change.”
pg A-16	Inserted Item 6 – Form for Public Comments, Questions, and Concerns.
pg A-17	Inserted Item 7 – Notice to Stakeholders of Clean Water Act Section 303(d).
pg A-18	Inserted Item 8 – Public Participation Timeline.

Appendix B

The order of some fact Sheets containing listing information pertaining to the following constituents have been expanded: chloride, color, dissolved oxygen, enterococci, fecal coliform, nitrogen, phosphorus, TDS, and turbidity. The sections entitled “Water Quality Objectives not Attained” have been expanded to include the temporal component of the pertinent water quality objective. The sections entitled “Evidence of Impairment” now present the evidence with respect to the temporal component of the water quality objective.

Some Fact Sheets have been re-arranged to reflect ascending hydrologic area enumeration.

pg B-2	Inserted new paragraph describing “potential” beneficial use designation.
pg B-7	TMDL priority for phosphorus changed to Medium.
pg B-8	Fact Sheet for Dana Point Harbor re-written.
pg B-19-21	Listing for sulfate dropped in Sandia Creek.
pg B-20	Graphs revised to include proper data.
pg B-22-24	Listing for TDS dropped in the upper Santa Margarita River.
pg B-23	TMDL priority for phosphorus changed to Low.
pg B-26	TMDL priority for phosphorus changed to Low.
pg B-29	Graphs revised to correctly place line describing Basin Plan objective.
pg B-31	TMDL priority for chloride, TDS changed to Low.
pg B-35	Graphs revised to correctly place line describing Basin Plan objective.
pg B-41	Graphs revised to correctly place line describing Basin Plan objective.
pg B-51	TMDL priority for pH changed to Low.

- pg B-52-58 Listing for chlordane dropped in San Diego River.
- pg B-58 TMDL priority for low dissolved oxygen changed to Low.
TMDL priority for fecal coliform changed to Medium.
- pg B-59 Inserted new paragraph under "Evidence of Impairment."
- pg B-62-64 Inserted new Fact Sheet "PACIFIC OCEAN, NORTH AND CENTRAL
CORONADO BEACHES."
- pg B-69-74 Fact Sheet "SAN DIEGO-ORANGE COUNTY COASTLINES" re-written.
